ABOUT ME

Detail-oriented software engineer with over 3 years of experience designing, developing, and maintaining scalable and high-performing web applications. Skilled in modern web technologies and frameworks, with a strong focus on delivering exceptional user experiences. Adept at collaborating with cross-functional teams and solving complex technical challenges.

WORK EXPERIENCE

Babelos

City: Lagos | **Country:** Nigeria

[13/01/2025 – 10/07/2025] **Full-stack Developer**

- Developed full-stack web applications from the ground up, ensuring performance, scalability, and maintainability.
- Implemented real-time features using WebSockets, enabling instant event-driven communication across clients and systems.
- Integrated webhooks to receive and respond to external service events seamlessly.
- Designed and exposed secure, RESTful APIs for user authentication, account management, and custom resource access.
- Converted UI/UX designs into fully responsive, pixel-perfect web interfaces with smooth, intuitive user interactions.

Nexapay Innovations

City: Lagos | **Country:** Nigeria

[12/05/2024 – 11/01/2025] **Frontend Developer**

- Translated UI/UX designs into pixel-perfect, responsive web pages using HTML5, CSS3, and JavaScript.
- Implemented reusable components in React, reducing development time for future projects.
- Collaborated with backend engineers to integrate APIs and ensure seamless data flow.
- Designed and implemented nested routes and layouts using React Router Outlets, enhancing navigation and user experience in complex applications.

ADM Asia Pacific

City: Manilla | **Country:** Philippines

[17/09/2023 – 07/04/2024] **Full stack Developer**

- Built and maintained a dynamic raffle draw system using HTML, CSS, and JavaScript, ensuring real-time updates and smooth user interaction.
- Enhanced the user experience by optimizing the frontend for responsiveness and accessibility.
- Automated the draw process with a randomized algorithm to ensure fairness and transparency.
- Optimized the handling of large name lists by implementing batch loading, enhancing performance, user experience, and memory efficiency.

EDUCATION AND TRAINING

[17/11/2016 – 21/11/2021] **Bachelor of Science / Education**

Lagos state University https://www.lasu.edu.ng

City: Lagos | **Country:** Nigeria |

[20/02/2020 – 14/03/2021] **Backend Engineer Certification**

ALX Holberton school https://www.alxafrica.com/

City: Nairobi | **Country:** Kenya |

SKILLS

Microsoft Office | Google Suite (Doc, Slides, Form, Sheet, Drive)

Programming languages
C | Javascript, TypeScript | Python | CSS | HTML
Databases
SQLite | MongoDB | Redis | Postgres Database | MySQL
Platforms & tools
Heroku | Vercel | Postman | Netlify | Git
Frameworks
Next.js | React.Js | Flask | Django

PROJECTS

[12/09/2023 – Current]   **Nene's Delicacy**

Created and deployed a fully functional ecommerce platform dedicated to selling freshly baked goods. Built using Django for the backend and React for the frontend, the platform allows users to easily browse a variety of baked items, place orders, and manage their shopping experience.
